Portfolio: <https://portfolio-jeena2.vercel.app>

Email: jeenamandal20@gmail.com

Mobile: 6204079172

SKILLS

Languages:	Python, C, C++
Frameworks & Libraries:	NumPy, Flask, Arduino Framework
Databases:	MySQL, NoSQL, PostgreSQL, DBMS
Cloud / DevOps:	Docker, Kubernetes, Google One
Developer Tools:	GitHub, Git, VS Code
Core Subjects:	Computer Networks, Database Management System, Data Structures & Algorithms
Soft Skills:	Teamwork, Adaptability, Problem-solving, Empathy, Accountability

INTERNSHIP

AI/ML Intern — ExiosAI	June 2026 – July 2026
- Assisted in building and testing small Python-based machine learning models under senior engineer guidance. - Contributed to data cleaning, model evaluation, and documentation for an internal AI tool.	

PROJECTS

Library Management System — AI-powered library management system	Oct 2025
- Developed a full-stack Library Management System for book, member, and issue/return management. - Implemented authentication, book search, availability tracking, and transaction management. - Designed a responsive interface with integrated backend APIs and database connectivity. - Followed an Agile approach for iterative development and testing.	
<i>Tech Stack: Full-stack web development, REST APIs, Authentication, Database integration</i>	

Brain-Controlled Buggy — EEG/EMG-driven robot vehicle	May 2025
GitHub Live	
- Developed a brain-controlled buggy using an EEG sensor, Bio-Amp EXG Pill, and Arduino Uno to interpret brainwave signals and control vehicle movement. - Processed detected EEG brain signals (including beta-wave activity) and mapped signal patterns to movement commands for the buggy. - Integrated Arduino Uno, L298N motor driver, DC motors, and a lithium-ion battery to build and test the hardware-based control system.	
<i>Tech Stack: C++, Arduino Uno, BioAmp EXG Pill, L298N Motor Driver, DC Motors</i>	

TRAINING

Python Programming — Infosys Springboard Certificate	June 2026 – July 2026
- Completed structured training in Python programming, covering core syntax, control flow, functions, data structures, and object-oriented programming concepts. - Developed and tested Python-based solutions for programming exercises involving data manipulation, logic building, exception handling, and file operations. Certificate tag.	
<i>Tech Stack: Python</i>	

CERTIFICATIONS / CERTIFICATES

CS105: Introduction to Python Saylor Academy	Feb 2026
Introduction to Artificial Intelligence Infosys Springboard	Mar 2026
Programming Fundamentals using Python – Part 1 Infosys Springboard	Aug 2026
Programming Fundamentals using Python – Part 2 Infosys Springboard	Aug 2026

ACHIEVEMENTS

Scored 90.52% in Saylor Academy's CS105: Introduction to Python certification exam	Feb 2026
Earned 3 certifications from Infosys Springboard in AI and Python programming within a single year	2026

EXTRACURRICULAR ACTIVITIES

Selected as one of 200 participants for “BEEyond Limits – Taking Innovation Beyond the Basics,” School of Computer Science and Engineering, LPU	Nov 2025
--	----------

EDUCATION

Lovely Professional University	Punjab, India
B.Tech in Computer Science and Engineering — CGPA: 7.2	2025 – 2029
Vidya Bharti Chinmaya Vidyalaya	Jamshedpur, Jharkhand
Senior Secondary (Class XII) — Percentage: 80.3%	2024 – 2025
